To Whom This May Concern:

After reviewing the submitted sample of your new Pro-Ops External Ballistic Vest Cover, in addition to your How to Assemble Guide we feel confident that the Pro-Ops External Ballistic Cover would not adversely affect the warranty or integrity of U.S. Armor ballistic panels. Please consider this letter as our approval for use of the Pro-Ops External Ballistic Cover with U.S. Armor ballistic panels.

We will be returning your sample today.

Please let me know if you need anything further on this.

Very sincerely,

A handwritten signature in black ink, appearing to read 'Stephen Armellino', is written over a light blue horizontal line.
